

PRN Physician Recommended Nutraceuticals®

PRN Joint Health Products

PRN is a leading producer of food-based medicines, often referred to as nutritional supplements or nutraceuticals. Omega-3 (EPA/DHA) essential fatty acids and certain vitamins are critical for good health. People who do not receive adequate Omega-3 or vitamins in the foods they consume may experience a number of health issues. PRN products are designed to address a range of specific health conditions caused by an omega-3 or vitamin deficiency.

PRN's portfolio of anti-inflammatory products are formulated based on a robust body of clinical evidence. Whether improving joint health or reducing inflammatory pain, PRN's omega-3 products are designed to deliver a potent, pure, safe, and efficacious approach to improving health and relieving symptoms.

Flex Omega Benefits®

Description

- **Enhanced anti-inflammatory benefits**
- **Maintains joint health and flexibility**

Persistent musculo-skeletal, joint, and back pain are often caused by chronic inflammation. Flex Omega Benefits® is custom formulated with a high concentration of the anti-inflammatory Omega-3, EPA (eicosapentanoic acid) in its natural triglyceride form, along with Vitamin D3 to maintain strong bones. This product offers an effective, safe, and natural way to support joint health and manage aches and soreness without the side effects often experienced with taking prescription pain relievers and NSAIDs. Flex Omega Benefits® also offers significant benefits for exercise recovery and general cardiovascular health.¹

- Natural Triglyceride Form for Maximum Absorption
- Highly Purified and Concentrated
- Molecularly distilled in a Pharmaceutically Licensed Facility
- Independent Laboratory Tested for Quality and Purity

Suggested Use

Adults

4 softgels daily with meals¹
